Celebrating 30 Years of Callaway Corvettes

In 1987 Corvettes got a little faster thanks to engineers at Callaway Cars. What started in the garage of Reeves Callaway's Old Lyme, Connecticut home has grown into a company with three locations (Connecticut, California and Germany) and four core business units: Callaway Engineering, Callaway Cars, Callaway Carbon and Callaway Competition. In celebration of Callaway's 40th anniversary, and their 30th anniversary of their relationship with Corvette, the National Corvette Museum's Exhibit Hall is displaying 15 examples of this high-performance Corvette. The exhibit officially opens tomorrow (Friday, January 13) and ends May 5, 2017.

Corvette Plant Tours

Tours at the Bowling Green Assembly Plant will be closed after June 16, 2017. We do not have additional details about when tours will resume, but the National Corvette Museum will remain open to the public and continue regular operations. When more information is made available by the Corvette Assembly Plant, it will be posted to our website and shared on our social media.
