Corvette Seminar Now Available on YouTube

In their annual Corvette Walk Seminar at the Michelin NCM Bash, Tadge Juechter, Harlan Charles and Ryan Vaughan, reflect on last year's triumphs, deflect about future product, and give us the scoop on the great things happening for Corvette's 65th anniversary. This is always a fun, entertaining, and informative session with the people who are directly responsible for today's Corvette. You'll love the interaction with the crowd as they pole the audience for features they'd like to see in upcoming models.

Horsepower Heroes Exhibit Now Open

As though America's Sports Car isn't fast enough, a number of companies over the years have modified Corvettes to make them even faster. Now through August 18, 2017 is a special 17-car display in the National Corvette Museum's exhibit hall featuring Corvettes modified for performance and speed, including Callaways, Lingenfelters, and Greenwoods. Want to see them for yourself? Make plans to visit us this summer!

Plan your visit here:

Is the Next Gen Corvette in Cars 3?

Throughout the history of Corvette, there have been tiny clues planted, almost like an Easter egg in a movie, that tip off the observant enthusiast of what's to come.

Speculation has been growing that the eighth-generation Corvette is on the horizon, as well as the development of a mid-engine GM vehicle. Rumors have been floating around that it could be a Corvette, or even a Cadillac. And while only time will tell what the truth is, enthusiasts are looking high and low for clues. Perhaps that clue can be found in the latest Disney-Pixar flick, Cars 3, set to hit screens June 16, 2017.

[Read about future product development and the latest Cars character here.](http://www.corvettemuseum.org/taking-automotive-design-and-performance-by-storm/)→
